BYOT - Bring Your Own Technology Broulee Public School Policy

Students in years 3-6 may bring to school internet capable digital devices after a copy of this policy has been signed by the parent, class teacher and student. These devices may then only be used at the direction of the class teacher for activities linked to class learning programs.

Students are responsible for bringing their devices to school fully charged and labelled for identification. Digital devices are not to be taken/used in the playground (recess and lunch) and may only be taken to the iCentre at lunchtime with teacher approval. Devices are to remain in classes during recess. They may be used in class during wet lunch and recess but only at the supervising teacher’s discretion.

Permission, if granted, will be for the current school year only and will not necessarily transfer to future school years. This policy will be reviewed and updated as necessary in collaboration with year 3-6 students, teachers and parents.

Students are responsible for the care of their devices. While the school will support the students to manage their individual devices the final responsibility will rest with each student.

Internet access through the school's wireless network and cyber safety filters will be provided to students free of charge. Teachers will enter the wireless settings and password into the student’s devices.

Students agree to respect copyright and only view, listen to, or access, school appropriate content on their mobile devices while at school.

Students agree while at school to access the internet only via the school filtered wireless internet and their data is turned off.

Parents and students can not contact each other via their device (text, email, call, imessage, Facebook Messenger, DM or Snapchat) as the Administration Office is still the point of contact.

Taking photos, videos or recording voice of any individual or group is not allowed without the express permission of all individuals being recorded and after permission from the teacher.

Consequences for breaches of this policy will be determined by the Principal or delegated Executive and may include banning the student from bringing their device to school.

Sue Lowe Principal Revised February 2017
